## FILE TESTING, ASSEMBLY & PHOTOGRAPHY SERVICE BUNDLES

*This document is intended for file designers inquiring and looking for professional file testing, assembly, photography and film services for their laser cut designs and products. Document is a general reference and may be customized based on the designers needs, requirements and products.*

Examples of projects I have worked on: Signs, mugs, stainless steel jewelry, wood & acrylic jewelry, keychains, ornaments, leatherette patches and general decor.

I do have the right to decline projects if I feel I am not a good fit for the project at hand. I will not work with any designs that contain copy written or trademarked content. I will also not work with designs that are intended to promote hate of any kind towards individuals or a group of people.

*V1. Document started 12-28-2022.*

*All projects are strictly confidential and filed accordingly in my archives once finished and completed. Unless designer gives permission for files to me used after testing in the making of physical products, files will be archived with the photos and not used again, unless rightfully and legally purchased from designer's shop/ website. Backups will be available upon request. Nothing will be shared about any given projects unless designer gives exclusive permission.*

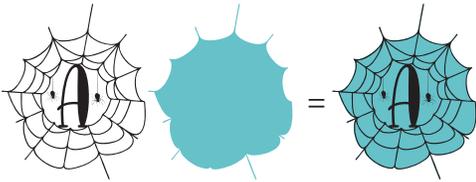

# Signs and Larger Decor - BY SET

\*This document is for signs and larger decor that will use up a full sheet (10x20). The standard materials that I use are 5/32 Maple from Home Depot and 1/8 MDF when strictly painted. For specialty woods and materials, that will need to be custom quoted and based per job. For custom materials, please allow a 2-3 week time frame for ordering and arrival.

The below options are for singular projects only. For bulk work (multiple projects), please refer to the second page which has two monthly options.

## 1 Set - 1 Design (1-2 layer)

1 sheet of material, 1 sheet for optional backer

Service includes file testing (on either my 60W CO2 or my 30W fiber), painting, and photography staging.

# Signs and Larger Decor - BY MONTH

If bulk work is anticipated (this option works best with designers who have a schedule in place), projects can be done on a month-to-month base. These contracts will renew monthly and are intended for designers who have large batches of products and designs they need tested, painted, photographed and released.

## MONTHLY RATE (UP TO 4 DESIGN SETS)

This option is for design set bundles. A bundle is considered 2-3 designs, so this is a great bulk option if you have 4 different file sets you would like worked on. This option works best for designers who have a schedule in place. Expect to have 1 file set completed each week.

Service includes file testing (on either my 60W CO2 or my 30W fiber), painting, and photography staging.

*\*Service also includes free "sneak peek" shots! These shots are usually angled and are intended for teasers.*

## MONTHLY RATE (UP TO 8 DESIGN SETS)

This option is for design set bundles. A bundle is considered 2-3 designs, so this is a great bulk option if you have 8 different file sets you would like worked on. This option works best for designers who have a schedule in place and are looking more for a rush, fast service. Expect to have 2 file sets completed each week (testing and photos).

Service includes file testing (on either my 60W CO2 or my 30W fiber), painting, and photography staging.

# KEYCHAINS & MAGNETS- ENGRAVES ONLY

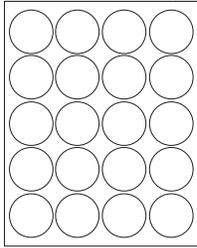

For smaller projects, a whole sheet of material is usually not warranted. Often, many different materials may be used- so please use this reference as a starting point. These two bundles incorporate a half sheet and full sheet. The general size is 2 in x 2 in, however the size can be customized as the designer sees fit. *This is also for products that are lineart/ engraved- not photo engraved!*

\*Due to the time with hand painting, if designer wants a hand painted option that will be done with a custom quote.

## 20 MAGNETS/ KEYCHAINS
